

## Winters StabilizR® Power Takes Care of Vibration

### Toronto, Ontario - Winters StabilizR® Power offers benefits over standard glycerin fill

Winters StabilizR® dampening movement has a proven track record of reliability and performance. It eliminates pointer fluttering as well as glycerin filling and offers additional advantages including no leaks, no discoloration and a wider temperature range of operation.

The StabilizR® dampening movement is available in the PEM, PFQ, PFP and PPC Series of commercial and industrial pressure gauges, servicing all your high vibration applications.

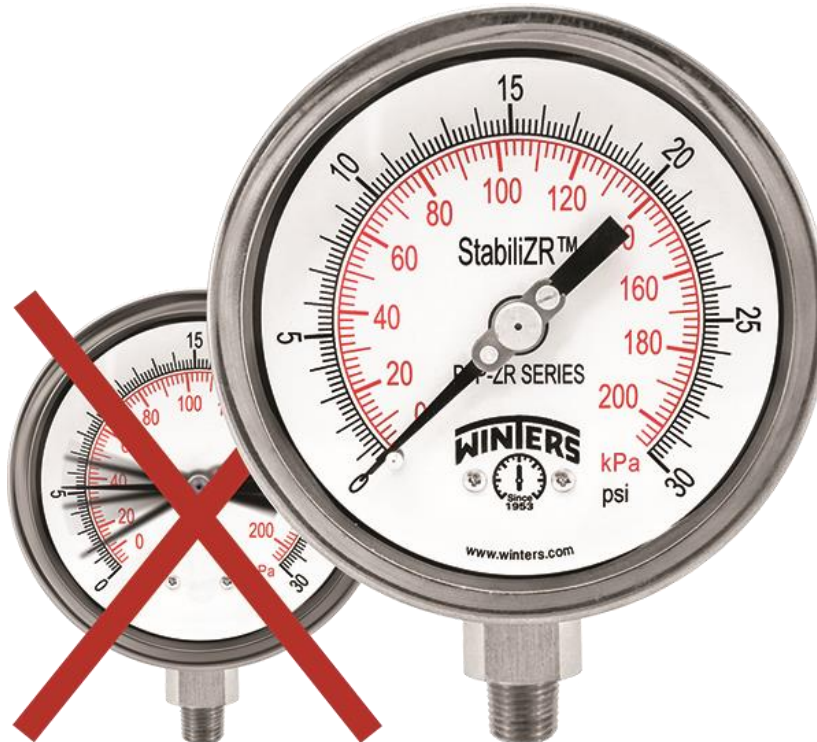

Winters Instruments is a global manufacturer of pressure and temperature instrumentation, with distribution in over 90 countries. Please visit us at [www.winters.com](http://www.winters.com) to view our extensive list of products and distributors.
