

## Introducing Winters WinSMART™ Family of Smart Transmitters

### Toronto, Ontario - Winters WinSMART™ Family of Smart Transmitters

Winters WinSMART™ family of pressure, differential and temperature transmitters offer a powerful combination of analogue and digital communications.

The LY16 Series offers pressure ratings from compound up to 14,500 psi, with all stainless steel wetted parts.

The LY36 is the differential transmitter rated from inches of water to 1,450 psi.

The TY52 is the temperature transmitter with a PT100 RTD sensor and an array of stem lengths.

All configurations include 4/20mA, 4/20mA + HART, 1/5VDC or MODBUS communication options; allowing you to connect to any PLC or PAC device.

With CSA approval for hazardous locations and Intertek listing for intrinsically safe areas, WinSMART™ has you covered for your arduous process automation requirements.

Winters Instruments is a global manufacturer of pressure and temperature instrumentation, with distribution in over 90 countries. Please visit us at [winters.com](http://winters.com) to view our extensive list of products and distributors.
