FOR IMMEDIATE RELEASE

NEW Winters Lead Free Instrumentation

September 10, 2013

Toronto, Ontario - Winters Instruments introduces a line of lead free products for drinking water.

Winters Instruments has launched a new line of lead free pressure gauges, thermometers and accessories. The line has been manufactured to comply with the 2014 Safe Drinking Water Act. The act, which takes effect January 4th, 2014, limits the amount of lead content of all products installed in potable/ drinking water systems.

Winters Instruments is a global manufacturer of pressure and temperature instrumentation, with distribution in over 80 countries. Go to www.winters.com to view our extensive list of products and distributors, or call 1-800-WINTERS for more information.
